#### • Chief Guest •

**Dr. Rohidas B. Kale**

**Honourable Joint Director,  
Higher Education, Mumbai Region, Mumbai**

#### • Venue •

**College Building  
Auditorium, 'B' Wing, N.S.S. College of  
Commerce & Economics**

## About the College

NSS College of Commerce and Economics, Tardeo, Mumbai was established in the year 1988 by our visionary founders late Shri. Rajabhau Mirashi and his wife late Smt. Shantabai Mirashi. The College is permanently affiliated to University of Mumbai since the year 2001-2002 and assessed and re-accredited by National Assessment and Accreditation Council (NAAC), Bangalore with 'B++' grade in 2016-17. It is a grant-in-aid institution recognized by the UGC under 2(f) and 12(b) of the UGC Act 1956. It was established with the vision of bringing the first generation graduates into the mainstream of education by equipping them with necessary skills to face the challenges of the modern world. The college is committed to 'Education to all' and offers Under Graduate(B.Com) and Post Graduate courses in Commerce (M. Com) under aided and self-financial sections. The College aims at catering value education and personality development to the students, turning them into national assets and inculcating in them principles of unity and national integration. The college has been organising a number of seminars, workshops and faculty development programmes, both at state and national levels in recent trends and innovative technologies in Commerce, Economics and related areas. The college strives to be an institution of excellence, achieving greater heights in the fields of academics and Extra-Curricular activities.

## About the Seminar

Over the recent past, there has been a growing recognition of the importance of academic research in India. The University Grants Commission (UGC) has framed new criteria to evaluate faculty performance for promotion in terms of Academic Performance Indicator(API) scores for research publications and outputs produced. However, the focus on research in these assessments has remained largely confined to the quantity, as the quality of research is very difficult to assess or measure objectively.

Effective collaboration between people from different disciplines is necessary to maximize the potential benefits of interdisciplinary for future research activity. Creating more opportunities that bring together research scholars from different disciplines would hopefully inspire academics to look outwards beyond publication counts and grant writing to see how their research can be applied for solving real world problems.

In view of the above, the IQAC of Nagrik Shikshan Sanstha's College of Commerce & Economics proposes to organize One Day National Level Seminar on "Innovative Practices and Emerging Trends: Quality Research in Higher Education". As it is high time to identify core issues in research and bring reforms to improve the quality of research, the focus is on benchmarking of knowledge in proper implementation of research outcomes for betterment of society.

## Objectives

- To identify emerging research areas and technologies which have an impact on teaching, learning and research.
- To foster communication among researchers and practitioners working in a wide variety of multi disciplinary areas with common interest in quality research in the areas of Commerce, Science and Technology and related areas.
- To understand global definition of quality measurement of research.
- To look various areas of improvement in upgrading quality of education and research.
- To identify and address the challenges and issues in research.
- To share innovative practices for enhancement of quality education and research.

This Seminar will also provide an opportunity to students to interact with experts and eminent researchers to enter mainstream research field which contributes for quality research and hence the national development.

### Call for Papers

The Topics of interest for submission include, but are not limited to
