### Principal's Message

We have ushered in the new academic year. The past year was marked by an improvement in our standards. This was confirmed by the National Assessment Accreditation Council. They have certified us as a B++ college. They have laid down guidelines for us to follow so that we can retain our standard and build on it. It should be our endeavour to build on the gains and take our College to greater heights.

The results of the T.Y.B.Com have been delayed. From the results that we have got it appears that our students have fared better than in the previous years. I hope and am confident that the teachers and the students will work hard to further improve the results in the coming year. We have now overcome the disruptions that arose because of the issues relating to correction of final year question papers. All the activities of the College have been started and is beginning to gather steam. I am sure that the teachers and the students will use the opportunities available to make the activities fruitful and interesting. Our College is for the students and we request your effort and wish you all growth and success. I look forward to the coming year to build on the success we have achieved last year.

Dr. Chandra Purkaystha  
(Principal)

### The Qualities of a Leader

#### Editorial

This newsletter is proposed to be published twice in an year. This initial issue is a brief account of the important events held up to October 2017. It is expected that inclusive support for this task will be delivered through the reader's valuable suggestions and comments. This is only a small step towards a long journey. To accomplish progress and to meet objectives we have to cross many milestones. This news letter will be a medium to provide proper acknowledgement and respect all of these efforts and its results. It is one such prized work that has its roots in the persuasion.

This maiden issue of newsletter should inspire all of us for a new beginning enlighten with hope, confidence and faith in each other in the road ahead..... Happy Reading!

Dr. Amar Sontakke

*Being a leader would not only be a great achievement for someone but also a great honour in the life. One should try to be a positive leader and lead his members to attain the goals of institution. Being a leader is actually a try to ensure that no-one will be left behind i.e. we all will be one and unified and walk on the same path to achieve the goal. The leader should take uniform decisions in which everyone's conformation would be present. All the decisions will be taken after the approval of the Principal, Teachers and all colleagues. The leader tries to make a difference; try to make influence others to set a positive and right example. Being a leader is a try to make and build more leaders. It is a fact that not all leaders are famous like Mahatma Gandhi, most of them are ordinary people; you can walk down the street and run into someone and not recognize that they are a very powerful leader. Although some people consider that leaders are born and not made, I believe that anyone can become a leader if they have enough courage and are thick skinned. There are many words that people come up with when they are asked to describe what makes a good leader. The most popular characteristics used to describe a good leader would be a good*

Ms.Kajol Dhainje, (S.Y.B.Com)  
(General Secretary)

*listener, responsible, and decisive. When you think of what makes a good leader you should also ask what kind of education they have and what would make them be a good leader. The first important key role in being a leader is being a good listener. Some might ask: Why should they be good listeners if they are leaders? Shouldn't they be the ones speaking and not listening? Yes they are the leader, but they need to listen and follow directions so they do not miss any important information. Leaders are always looking and encouraging the team to give them feedback so they can work to better themselves. The reason why leaders like to listen to feedback is so they can know what they that would be considered their strong point so they can work from that and make it even better. On the same note they need to listen to the critiques on what they did that was a weak point about them so they know what things they should avoid. If someone is calling themselves a leader but they do not like to take the positive criticism, then they probably are not a real leader. ■■*

# EDITORIAL

'To me, the greatest pleasure of writing is not what it's about, but the inner music the words make.'

-Truman Capote.

It springs us immense pleasure and gratification to finally re-introduce our very own college Newsletter. Just like the gods and the Asuras churned the ocean of milk to extract the nectar, we have tried to churn out creativity from our College Students. A lot of effort has gone into the making of this issue. We hope you enjoy reading our Newsletter. The best thing about this issue is that it represents the creative side of students and focusing on all events and activities successfully arranged in the college. Amidst the busy schedule of a few months' semester, with many programs and activities, regular lectures, Class Tests and all other we tend to lose track of all the other simpler things that we are capable of, that we could have been proud of, that can bring one satisfaction of reading literature. So this time we have made an attempt to bring out the talent concealed within our student community. This issue includes articles, poems, Information and other things. We hope you will enjoy reading this issue as much as we have enjoyed making it.

Any suggestions or criticism on the Newsletter would be most welcome.

## \* RECIPE FOR SUCCESS \*

- 1) MAKING THE DECISION- The first step in any process is making the decision to do something and to move forward.
- 2) CLARITY, DEVELOPING THE VISION- Having the clarity of purpose and a clear picture of what you desire is the most important factor in achievements we know that the law of attraction says that we will attract anything that we will focus on.
- 3) FOCUS HAVING PLAN-Focus is having the firm determination to complete what you set out to do.
  - 4) COMMITMENT- Understanding the price of commitment is something that comes from understanding that everything has its price and then having the willingness to pay the price.
  - 5) BELIEF- Believing in yourself. The majority of people carry with them on entire series of self-limiting beliefs that will stop and hold them back from achieving success.
  - 6) TAKING ACTION- Nothing will go ahead without taking action. Execution is the biggest factor in achievements.
  - 7) CONCLUSION- You now have the opportunity to push a head and reach your potential. No more excuses makes the commitment to act TODAY.....
