Respected Ma'am,

Greetings from Finplan International!

At the outset of introducing you about our Global Professional Qualification in the field of International Accounting and Finance i.e ACCA IFRS; I am very glad to understand your vision for your esteemed institution NSS college and its students at large for developing their Career.

As discussed, the implementation of IFRS (International Financial Reporting Standards) within the reporting, accounting, taxation, auditing and similar functionalities in business amongst today's corporate sector is increasing at a rapid phase.

As regulatory standards globally are shifting to IFRS accounting Standards, India's accounting standards have also emerged to be following the trail of developing more talented Global Financial Leaders on IFRS Accounting Standards now demanded by Indian MNC's and TNC's.

We have been the pioneers to address this requirement in the business world by emerging as a Leading Institution for training students in IFRS led education and qualifying them for certification as ACCA (Association of Chartered Certified Accountants) affiliates and members.

By associating with various universities and institution across India; we have been able to extend the benefits of our education to their students from commerce, banking, finance and business management sections.

As a Gold Approved learning partner with the ACCA Qualification we have been able to create Leadership and Managerial Career opportunities in the technical positions of Finance and Accounting for students who seek a rewarding career with corporates and businesses.
